Ril Lake Association Annual General Meeting

Welcome All.

Join us at our **2007 Annual General Meeting on Sunday, August 5th at 10:00 A.M** (Agenda attached).

Since our 2006 AGM, we have made solid progress to rejuvenate interest and involvement in our cherished Ril Lake community. Our group of volunteers is growing and many are embracing more proactive roles.

Since 2006, two very informative and productive **"Dock Talk"** meetings have taken place. Thanks to the Wittick family for their coordination efforts and the use of their front yard.

Casey Cook has caught the interest of the people at the Muskoka District Watershed Council and Heritage Organization. Our interest and eagerness to improve and restore Ril Lake to a more natural and ecologically responsible community has resulted in the District personnel assisting us to achieve our goals.

In the Spring, Casey hosted a **Shoreline Naturalization and Water Quality** seminar presented by Muskoka Heritage. The ten fellow Ril Lakers who attended the seminar learned the "do's and don'ts, and the "good and bad" about how to manage our properties.

Margaret Fielding has undertaken the task of **Septic Systems and Eco-Products** with a thoroughness and tenacity that will serve all Ril Lakers.

Join us at the 2007 AGM to learn more. Become an active part of the growing interest in **OUR Ril Lake**. Tell us what you want, or can do. Help add positive momentum to the everyday changes all of us can make to protect our little oasis in Muskoka.

Looking forward to your participation and attendance.

Sincerely,

Paul Priest

Ril Lake Association, President
